

Directions to make 4-group Number Patterns 1-10 using Egg Cartons

## Kuske Kartons™

Makes one set.

1. You need 6 cardboard egg cartons (one dozen size).
  - a. Do not use the ones with the tall narrow dividers down the center, as they do not stack well.
2. Cut off and recycle the top flaps from the cartons.
3. Using a pair of sharp scissors, cut the cartons according to the picture below.
4. Round off any corners that might break off.
